

**Vetter Stone Company, Mankato** is the generous donor of Minnesota Stone, native to the area and used around the world, in the outdoor space at the city of Mankato's new Grand Hall. It creates gathering space that draws off natural beauty to create Vetter Stone Plaza at Second and Walnut streets. The space includes art which builds from a compressed image of the Minnesota River.

Second and Walnut streets Mankato, Minn

# VETTER STONE PLAZA

"Our family is pleased to make this donation to the community to help carry on the legacy of our sister Ann Vetter. Ann was very involved in supporting the local arts and was especially interested in the Mankato Symphony and the City Art Walking Sculpture Tour. Ann fully understood the importance of art to the community. This gift builds on that vision by helping create additional art space in Mankato's City Center."

**Ron Vetter**

*President and CEO, Vetter Stone Company*

Art benches in the space encourage public gathering and socializing to add to City Center identity.
